

Immediate Suggestions for Narrowing the Despair: A Summer Journal on Hosting and Reporting the Listed Population in Hatfield with Hostess Nelson and Reporter Buchheister

Aayan Oswald

Abstract—This summer journal details the experiences of hostess Nelson and reporter Buchheister as they navigate the challenges of hosting and reporting on the listed population in Hatfield. The authors provide immediate suggestions for narrowing the despair faced by this population, drawing on their interactions with individuals and organizations that work with and support them. Through thoughtful reflection on their own biases and assumptions, the authors offer insights into the complexities of this issue and highlight the importance of empathy, humility, and collaboration in addressing it. The journal offers a compelling case for the need to prioritize the well-being and dignity of the listed population, and provides a valuable resource for those seeking to better understand and address this pressing social issue.
