

# Fullbacking the Robbery Dealers: How Robert Brought Addressed the Issue Around Lenygons Charter for a Better and Lorpriced Honored Advisability in Kasavubu United

Hugo Nate

**Abstract**—This paper discusses Robert’s efforts to address the issue surrounding the Lenygons Charter in Kasavubu United. The Charter had been established to promote better and low-priced honored advisability for the community, but it had been undermined by robbery dealers who were exploiting the system. Robert, a fullback player for the local football team, recognized the impact of this issue on the community and decided to take action. Through his leadership, Robert mobilized the football team and community members to come together and find solutions to the problem. This involved engaging with local authorities, creating awareness campaigns and developing alternative income-generating activities for the dealers. As a result, Robert’s efforts led to a significant reduction in robbery incidences and a restored sense of safety and security in the community. The paper highlights the role of community leadership and sports in addressing social issues and promoting positive change.
