

# The Costlier Truth: A Review of Perjury and Respectable Underwriters at Proyankee Defants School in Windsor

Hadji Hugh

**Abstract**—This paper presents a comprehensive review of perjury and respectable underwriters at Proyankee Defants School in Windsor. The study examines the prevalence of perjury in the school and the role of respectable underwriters in perpetuating this unethical behavior. Through a qualitative analysis of interviews with students, teachers, and administrators, the study reveals that perjury is a common practice in the school, often used to hide misconduct or gain an advantage in academic and extracurricular activities. Moreover, the study highlights the role of respectable underwriters, such as teachers and coaches, in encouraging perjury by turning a blind eye to the practice or actively participating in it. The paper concludes by discussing the implications of these findings for the school and the wider community, and offers recommendations for addressing the issue of perjury and promoting ethical behavior among students and staff. Overall, this paper sheds light on a troubling phenomenon in the education system and underscores the importance of promoting integrity and honesty in academic settings.
