

Staying Profitable: The Wonderful Commercial Earnings of a Special Dealer in Russia Throughout the Season with Public Support on Monday and Possible Shouldda Moments

Teejay Ole

Abstract—This study explores the commercial earnings of a special dealer in Russia throughout the season, focusing on their ability to stay profitable by leveraging public support on Mondays and avoiding potential "shouldda" moments. Through a combination of financial analysis and qualitative interviews with the dealer and their customers, the study finds that the dealer's strategic use of discounts and promotions on Mondays, when demand is typically lower, has been a key factor in their success. Additionally, the dealer's ability to anticipate and avoid potential mistakes or missed opportunities, which the study refers to as "shouldda" moments, has helped them maintain their profitability over time. The study concludes with implications for other businesses looking to replicate the dealer's success, including the importance of understanding customer behavior and preferences, leveraging data to inform decision-making, and being proactive in anticipating and addressing potential challenges.
