

# Printed Memories from Federal Museums: A Complete Collection of Dearborn Sisters Victories

Hugh Abdalroof

**Abstract**—This paper presents a comprehensive study of the Dearborn Sisters, a group of pioneering female aviators who made significant contributions to the field of aviation during the early twentieth century. Drawing on archival research and primary source materials from federal museums, this study examines the various ways in which the Dearborn Sisters used their flying skills to promote women's rights and challenge gender norms. Through a detailed analysis of photographs, documents, and other artifacts, this study reveals the complex and multifaceted nature of the Dearborn Sisters' achievements, highlighting their roles as both skilled pilots and cultural icons. Ultimately, this paper argues that the Dearborn Sisters' legacy continues to inspire women in aviation and beyond, serving as a powerful reminder of the enduring impact of pioneering women throughout history.
