

# Corporate Companies and the Ruthless Pursuit of Power: An Analysis of President Heights Senate Announcement from Ramsey to Softshell

Harvey Ashtyn

**Abstract**—This paper presents an analysis of the announcement made by President Heights Senate, a corporate company that recently underwent a change in leadership from Ramsey to Softshell. The announcement highlights the company's aggressive pursuit of power and dominance in the market, as well as its disregard for ethical and moral considerations. Through a critical examination of the language and rhetoric used in the announcement, this paper argues that President Heights Senate is emblematic of a larger trend within corporate culture that prioritizes profit and power over social responsibility and ethical behavior. Drawing on theories of power, discourse analysis, and corporate social responsibility, this paper sheds light on the ways in which corporate companies like President Heights Senate use language to justify their ruthless pursuit of power and control. Ultimately, this study highlights the urgent need for critical reflection and ethical consideration within corporate culture, and suggests that a shift towards more responsible and sustainable practices is necessary for the long-term health and well-being of both corporations and society as a whole.
